*Damascus Christian School's mission is to assist Christian parents in the Biblical training of their children spiritually, academically, emotionally, and physically to help prepare them to be competent, confident representatives of Jesus Christ.*

## **HAVE YOU CONSIDERED THESE BENEFITS OF DAMASCUS CHRISTIAN SCHOOL?**

- ? ? **The benefit of having a kindergarten through 12th grade program with strong academics, well-balanced social, physical and extra curricular activities, all centered upon Biblical values, morals, and ethics**
- ? ? **The benefit of having our children in an environment that compliments and supports the training and nurturing parents give at home**
- ? ? **The benefit of having the school closely related to the church so there is no division of loyalties. Both fully support the other.**
- ? ? **The benefit of school friends and teachers who seek to support rather than undermine our children's beliefs and standards**
- ? ? **The benefit of an uncensored education. Students are exposed to the philosophies of the "real world" while given a Biblical context from which to make life's decisions**

*Enrolling your children in a Christian school does not mean that you are a crusader against the public school system. It means that you want a reality-based education for your children that cannot be provided by the public school. By law, tax supported schools may not provide Biblically-based education.*

*An education in which Jesus Christ is central will influence the whole course of a student's life and is the best preparation for the real world.*
